IT'S NOT THAT NOTHING WORKS

For when you're not sure it's going to work

EVERYDAY ALCHEMY

Every Cause has its Effect; every Effect has its Cause.

THE KYBALION

"I've tried everything, so why hasn't it happened yet?"

"What if it all just isn't true?"

"Am I missing some secret everyone else knows?"

"I don't love it. It could be a little bit better."

That makes sense, and nothing is wrong with you.

THE UNCERTAINTY

- "Is it my blocks? My trauma? My resistance?"
- "The more I understand, the more I question."
- "I'll try one more technique, one more teacher, one more course."
- "I already know this. What the hell."
- "It works sometimes, then it stops working and I don't know why."
- "I find the feeling in meditation and lose it before lunch."
- "I'm tired of trying the same things over and over again... And nothing seems to work."

GUESS WHAT?

There's more to this than just wanting it.

WHY IT MAKES SENSE

Wondering whether it will work is a kind of fear. You're not sure it will, so part of you braces for it to fail.

And that comes from somewhere real. At some point in your past, something you tried didn't work. Now you're doing something today that's meant to bring a result later, and that old moment speaks up about the future. Of course it does. Part of you is remembering.

"What if it all just isn't true?"

That's a fear that it won't work. You're not sure it will, so part of you expects it to fail.

"I always plant a seed and after a few days I dig it up."

That's the past speaking about the future. An old moment where something didn't work is shaping what you expect from today.

"Something's not right. I just need to fix it."

That's feedback from Source. When something doesn't feel right yet, it lets you tune what you're doing to get better results.

Source is the larger field of intelligence that everything comes from, and that you're part of.

WHAT TO DO

1. **Notice the thought** when it comes up. Don't argue with it.
2. **Breathe into right now.** The past is over and the future hasn't happened. This moment is where you work from.
3. **Remember that what didn't work before helped you become successful.** It's part of how you got here.
4. **Treat what happens as feedback.** If today doesn't go the way you hoped, it brings you feedback from Source, and you tune from there.
5. **Ask yourself:** "What if I'm not doing this wrong at all?"

WHERE TO GO NEXT
